

Key features

- **IPSEC, OpenSSL and OpenSSH.** Safeguard your corporate LAN from outside intruders and ensure the privacy and integrity of data transmitted over the Internet.
- **Hot plug memory support.** Add additional memory without a reboot.
- **Increased memory support.** With 64 GB of memory, you can support powerful applications and hardware (upto 32GB general purpose memory and above 32GB to be used for dynamically shared memory).
- **Java support.** Application developers can take advantage of the features in Java and users will have more applications available.
- **ACPI hyperthreading** for Intel chipset, network & video drivers, sound support, and more.
- **Multiple personalities.** Run non-UnixWare applications in native mode to reduce and control operating costs.

Security

Enhanced security features help secure transmission of information over the Internet and protect your internal network from outside intrusion. IPSEC provides VPN services and OpenSSL and OpenSSH allow for secure transmission.

A Pluggable Authentication Module lets system administrators define custom authentication procedures for various system services.

Development kit

The UnixWare 7 Definitive development kit contains C and C++ compilers and the graphical debugging tool that enables the rapid development of applications for UnixWare 7 Definitive.

Professional Services

Our industry-leading consultants combine professionalism, creativity, and attention to detail to help you with server migrations, deployments, and replication.

Virtualization

UnixWare 7 Definitive is optimized to run in a virtualized VMware environment and lets you easily have a Virtual Machine launched and configured within an hour. In addition to energy savings and lower capital expenditures, virtualization provides higher resource availability, better desktop management, increased security, and improved disaster recovery.

Support

UnixWare 7 Definitive is available with flexible break/fix support tailored to your business requirements. Additional services such as 24x7 support and one hour response time.
